Essilor Crizal® Prevencia™ lenses are Class I medical devices intended for the correction of ametropias and presbyopia and offering selective protection from harmful blue light and UV rays. Essilor informs you that the above information is general information given as public awareness. For more information, Essilor invites you to consult a healthcare professional (eye doctor, ophthalmologist). Covered under U.S. Patent No. 8,360,574. Additional U.S. and foreign patents pending.

©2014 Essilor of America, Inc. All rights reserved. Unless indicated otherwise, all trademarks are the property of Essilor International and/or its subsidiaries in the United States and in other countries. Crizal Kids UV is a trademark of Essilor International. E-SPF and the 25 E-SPF design are registered trademarks of Essilor of America, Inc. E-SPF is a global index developed by Essilor, endorsed by independent third parties, measuring the lens' UV protection excluding direct eye exposure from around the lens. E-SPF of 25 means the wearer is 25 times more protected than without any lens. *E-SPF of 25 when Crizal is made with any lens material other than clear 1.5 plastic. LZAL201014 NJGD/ECSB 1/14

Crizal® Prevencia™ Kids No-Glare lenses
Crizal Kids UV™ No-Glare lenses

Crizal® Previncia™ Kids & Crizal Kids UV™ Cut-Out Chart Instructions:

- 1) With frame on the patient's face, dot both lenses to note pupil location
- 2) Place the dotted lens face down on the cut-out chart and align to the fitting cross (Repeat for both left and right lens).
- 3) If the frame's lens is completely inside the circle, the frame is compatible with either of these No-Glare lenses. If any part of the frame's lens falls outside of the circle, the frame will not work with either of these No-Glare lenses.
